

NURUL ATHIRAH BINTI MOHAMMAD
BACHELOR OF COMPUTER SCIENCE WITH HONOURS
Contact No: +6014-5338353 Email: athrhmo20@gmail.com
Setapak, Kuala Lumpur
LinkedIn: linkedin.com/in/athirahmohammad

OBJECTIVE

Recent graduate with a strong foundation in programming and data science. Skilled in utilizing Python, SQL, and Power BI for AI/ML/DL applications. Demonstrated ability to build predictive models and create insightful visualizations. Proven communicator focused on translating complex data into business insights. Seeking an opportunity to apply these analytical skills in a professional role.

EDUCATIONAL BACKGROUND

UNIVERSITI KEBANGSAAN MALAYSIA

(2022 – Current)

Bachelor of Computer Science (Hons.) | CGPA: 3.50 | MUET: Band 4

Final Year Project: *Campus Defender – Campus Crime Classification Based on Machine Learning Techniques (2025)*

- Developed a supervised machine learning model to classify campus crime incidents using structured data.
- Applied data pre-processing and feature engineering using Python (pandas, NumPy) to improve data quality and model performance.
- Trained and evaluated SVM, Random Forest, and Decision Tree models using scikit-learn, optimizing performance with accuracy, precision, recall, and F1-score.
- Built a web-based platform with Flask featuring real-time predictions, anonymous reporting, and interactive visualizations.

Academic Project: *Downstream Catalyst Inventory Dashboard (2025)*

PAHANG MATRICULATION COLLEGE

(2021 – 2022)

Programme – Physical Science Stream

CGPA: 3.83

WORK EXPERIENCE

Petroliaam Nasional Berhad (PETRONAS). (Kuala Lumpur, Malaysia)

(Sept 2025 – Jan 2026)

Data Analyst Intern, Operations Management

- Analysed operational and performance data using Microsoft Excel (Pivot Tables, Power Query, and advanced formulas) to support business decision-making and improve operational efficiency.
- Extracted, cleaned, validated, and consolidated data from multiple internal systems and spreadsheets to ensure data accuracy, consistency, and reporting integrity.
- Developed and maintained interactive Power BI dashboards to monitor operational KPIs, track performance trends, and provide actionable insights for management.
- Gathered, compiled, and analysed Operational Excellence (OE) and Health, Safety, and Environment (HSE) incident data to support performance monitoring, compliance reporting, and continuous improvement initiatives.
- Performed trend analysis and data visualization to identify recurring operational issues, risk patterns, and opportunities for process optimization.
- Collaborated with engineers, analysts, and business stakeholders to gather requirements and translate business needs into structured reports, dashboards, and data-driven recommendations.
- Prepared presentation materials, visual summaries, and management reports to effectively communicate analytical findings and operational insights to technical and non-technical audiences.
- Documented meeting discussions and prepared detailed Minutes of Meeting (MoM), ensuring effective communication, stakeholder alignment, and timely follow-up on action items.
- Presented dashboard findings, performance metrics, and analytical insights during stakeholder review and validation sessions.

LOCAL FOOD STALL

(Sept 2021 – Aug 2025)

Kitchen Helper (Part Time)

- Successfully provide all time excellent customer service to customers result in increase of **40%** positive feedback from customers.
- Efficiently Collaborated within a dynamic team to provide exceptional service despite challenges posed by a high volume of customers and limited staff resources.
- Efficiently assisted with food preparation, ensured strict adherence to hygiene standards and consistently maintained a clean and organized kitchen space.

PROFESSIONAL CERTIFICATION AND TRAINING ATTENDED

- NVIDIA- Accelerating Data Engineering Pipelines

ACADEMIC INVOLVEMENTS

- Facilitator, Programming with Blockly Camp, UKM (2023)
- Multimedia Executive, Za'ba Debate Challenge 2023, UKM (2023)

SKILLS

Software & Tools : Python (Pandas, NumPy), SQL, C, C++, HTML, CSS, JavaScript, PHP, Power BI, Excel, Power Query, Microsoft 365 Suite, Visual Studio Code, Canva

Technical Skills : Data Analysis, Data-Driven Reporting, Dashboard Development, Statistical Concepts, Document Management, Technical Reporting, Regulatory Compliance, Testing, Data Visualization, SQL Querying

LANGUAGES

Malay : Native Proficiency
English : Full Professional Proficiency
